

# Certificate of Decontamination

- Device(s) never exposed to infectious materials, posing no health risk.
- Device(s) surface decontaminated using the following method:

---

(e.g. submersion in a 10% bleach solution, autoclave, disinfectant wipe of external surfaces, etc.)

I acknowledge that the equipment described above was decontaminated and disinfected of any potentially infectious material using the method described above or is otherwise safe to handle.
